36th
ANNUAL
REPORT

2024-2025

FORWARD LOOKING STATEMENT

In this Annual Report the forward-looking information if any, is for enabling investors to comprehend our prospects and take informed investment decisions. This report and other statements - written and oral - that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried, wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realized, although we believe we have been prudent in our assumptions. The achievement of results is subject to risks, uncertainties and even inaccuracies in our assumptions. Should known or unknown risks or uncertainties materialize or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. We undertake no obligation to publicly update any forward-looking statements, arising as a result of new information, future events or otherwise.

APPEAL TO MEMBERS

The Ministry of Corporate Affairs has taken a "Green Initiative in Corporate Governance" by allowing paperless compliances by the Companies and has issued circulars allowing service of notices /documents including Annual Report by e-mail to its members. To support this green initiative of the Government in full measure, members who have not registered their e-mail addresses, so far, are requested to do the same immediately. As your Company is committed to the green initiative, members are requested to support this by registering/updating their e mail id with their Depository Participants or Registrar & Share Transfer Agent.

In accordance with the said circulars of MCA, SEBI and applicable provisions of the Companies Act, 2013 (the 'Act') and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the 'SEBI Listing Regulations'), the 36th AGM of the Shareholders will thus be held through video conferencing (VC) or other audio-visual means (OAVM) without physical presence of members at a common venue. Hence, Shareholders can attend and participate in the ensuing AGM through VC/OAVM. Central Depository Services (India) Limited ("CDSL") will be providing facility for voting through remote e-voting, participation in the AGM through VC/OAVM facility and e-voting during the AGM. The procedure for participating in the meeting through VC/OAVM is explained at Note No I to X below and is also available on the website of the Company at www.camexltd.com.
2. Pursuant to the provisions of the Act, a Member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on his/her behalf and the proxy need not be a member of the Company. Since this AGM is being held pursuant to the MCA Circulars through VC/OAVM, physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of proxies by the Members will not be available for the AGM.
3. The attendance of the Members attending the AGM through VC/OAVM will be counted for the purpose of reckoning the quorum under Section 103 of the Act.
4. In compliance with the MCA Circulars and SEBI Circulars, the Notice of 36th AGM along with the Annual Report for the financial year 2024-25 is being sent only through electronic means to those Members whose email addresses are registered with the Company/ Depositories. Members may note that the Notice and Annual Report 2024-25 will also be available on the Company's website at www.camexltd.com and website of BSE Limited at www.bseindia.com. Physical copy of the Notice of the 36th AGM along with Annual Report for the financial year 2024-25 shall be sent to those Members who request for the same.
5. Pursuant to the provisions of Section 91 of the Companies Act, 2013, the Register of Members and **Share Transfer Books of the Company will remain closed from Wednesday, July 30, 2025 to Tuesday, August 5, 2025 (both days inclusive)** for the purpose of Annual General Meeting.
3. Shareholders are requested to notify the Company immediately the change, if any, in the address in full with the postal area, pin code number, quoting their folio numbers.
4. Information regarding appointment/ re-appointment of Directors in pursuant to Regulation 36 of Securities and Exchange Board of India (Listing Obligation and Disclosure Requirements) Regulations, 2015 and pursuant to Secretarial Standards on General Meetings and Explanatory Statement pursuant to Section 102 of the Companies Act, 2013 in respect of special businesses to be transacted are annexed hereto.
5. The AGM has been convened through VC/OAVM in compliance with applicable provisions of the Companies Act, 2013 read with above MCA Circulars.
6. Shareholders seeking any information with regard to Notice are requested to write to the Company at least 7 (Seven) days before the meeting so as to enable the management to keep the information ready.
7. Shareholders holding the shares in physical mode are requested to notify immediately the change of their address and bank particulars to the R & T Agent of the Company. In case shares are held in dematerialized form, the information regarding change of address and bank particulars should be given to their respective Depository Participant.
8. Members are requested to intimate changes, if any, pertaining to their name, postal address, e-mail address, telephone/mobile numbers, Permanent Account Number (PAN), mandates, nominations, power of attorney, bank details such as, name of the bank and branch details, bank account number, MICR code, IFSC code, etc.,:
 - a. For shares held in electronic form: to their Depository Participants (DPs)
 - b. For shares held in physical form: to the Company/Registrar and Transfer Agent in prescribed Form ISR-1 and other forms pursuant to SEBI Circular No. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2021/655 dated November 3, 2021.

The Company has sent communication to shareholders in this regard.
9. The Register of Directors' and Key Managerial Personnel and their shareholding maintained under Section 170 of the Act, the Register of Contracts or Arrangements in which the Directors are interested under Section 189 of the Act and all other documents referred to in the Notice will be available for inspection in electronic mode.

10. Since the AGM will be held through VC/OAVM, the facility for appointment of Proxy by the Members is not available for this AGM and hence the Proxy Form and Attendance Slip including the Route Map are not annexed in this Notice.
11. Process and manner for Shareholders opting for voting through electronic means:

- i. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and MCA Circulars the Company is providing facility of remote e-voting as well as e-voting facility during the AGM to its Shareholders in respect of the business to be transacted at the AGM. For this purpose, the Company has entered into an agreement with Central Depository Services (India) Limited (CDSL) for facilitating voting through electronic means, as the authorized e-Voting agency.
- ii. The Shareholders can join the AGM in the VC/OAVM mode 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available to at least 1000 Shareholders on first come first served basis. This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restriction on account of first come first served basis.
- iii. The attendance of the Shareholders attending the AGM through VC/OAVM will be counted for the purpose of ascertaining the quorum under Section 103 of the Companies Act, 2013.
- iv. Pursuant to MCA Circular No. 14/2020 dated April 08, 2020, the facility to appoint proxy to attend and cast vote for the Shareholders is not available for this AGM. However, in pursuance of Section 112 and Section 113 of the Companies Act, 2013, representatives of the Shareholders such as the President of India or the Governor of a State or body corporate can attend the AGM through VC/OAVM and cast their votes through remote e-voting or e-voting.
- v. In line with the Ministry of Corporate Affairs (MCA) Circular No. 17/2020 dated April 13, 2020, the Notice calling the AGM has been uploaded on the website of the Company at www.camexltd.com. The Notice can also be accessed from the website of the Stock Exchange i.e. BSE Limited at www.bseindia.com. The AGM Notice is also disseminated on the website of CDSL (agency for providing the Remote e-Voting facility and e-voting system during the AGM i.e. www.evotingindia.com).
- vi. Shareholders whose names are recorded in the Register of Members or in the Register of Beneficial Owners maintained by the Depositories as on the Cut-off date i.e. Tuesday, July 29, 2025, shall be entitled to avail the facility of remote e-voting as well as e-voting facility on the date of the AGM. Any recipient of the Notice, who has no voting rights as on the Cut-off date, shall treat this Notice as intimation only.
- vii. A person who has acquired the shares and has become a member of the Company after the dispatch of the Notice of the AGM and prior to the **Cut-off date i.e. Tuesday, July 29, 2025**, shall be entitled to exercise his/her vote either electronically i.e. remote e-voting or e-voting system on the date of the AGM by following the procedure mentioned in this part.
- viii. Once the vote on a resolution is casted by the member, he/she shall not be allowed to change it subsequently or cast the vote again.
- ix. The voting rights of the Shareholders shall be in proportion to their share in the paid up equity share capital of the Company as on the **Cut-off date i.e. Tuesday, July 29, 2025**,
- x. The Company has appointed Mr. Ravi Kapoor, Practicing Company Secretary (Membership No. F2587) and proprietor of M/s. Ravi Kapoor & Associates, to act as the Scrutinizer for conducting the remote e-voting process and e-voting on the date of the AGM, in a fair and transparent manner.

THE INTRUCTIONS FOR SHAREHOLDRES FOR REMOTE E-VOTING ARE AS UNDER:

- i. The voting period begins on **Saturday, August 2, 2025 at 9.00 a.m. and ends on Monday, August 4, 2025 at 5.00 p.m.** During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the **Cut-off date i.e. Tuesday, July 29, 2025**, may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- ii. Shareholders who have already voted prior to the meeting date would not be entitled to vote again at the meeting venue.
- iii. Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the Demat account holders, by way of a single login credential, through their Demat accounts/ websites of Depositories/ Depository

Camex Limited

Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- iv. In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

“MANAGEMENT DISCUSSION AND ANALYSIS REPORT”
(I) INDUSTRY STRUCTURE AND DEVELOPMENTS

The global dyes market size was valued at \$33.02 billion in 2021 and is predicted to grow at a compound annual expansion rate based on revenue of 6.0% from 2021 to 2026. World demand for dyes and organic pigments is forecast to increase 3.9% per year since 2013, in line with real (inflation-adjusted) gains in manufacturing activity. Following trends seen over the past decade, the Asia/pacific region will experience the strongest growth and increase its share of the global dye and organic pigment market. Growth in dye consumption will trail increase in organic pigment demand, although dyes will continue to represent the lion's share of the overall market both in volume and value.

Rise in production of textiles to meet the increase in demand for consumers is expected to drive the growth of the market. Increase in urbanization, product innovation, rise in industrialization, and exponential growth of the online fashion sector is further expected to accelerate the growth of the market.

The market was negatively impacted by COVID-19. Owing to pandemic scenario, various countries went into lockdown, which led to supply chain disruptions and work stoppages. This negatively affected the demand of various industries like paints and coatings, textiles, and others. However, the conditions are expected to recover, thereby restoring the growth trajectory of the market studied during the forecast period.

The exports, of not just dyes, but also of other chemicals, gradually picked up as the year progressed and they showed significant improvement in February and March 2021. Hence, the overall exports of different chemicals from India were down only by 2.6% to \$ 17.6 billion in FY 2021 from \$ 18.1 billion in previous year. The reduction was largely due to the drop in export of dyes and organic chemicals. And now with the onset of liberalization and globalization, the Industry is on a major expansion spree. The industry today is into manufacturing wide range of goods including fine and specialty chemicals, drugs and pharmaceuticals, dyes and pigments, agrochemicals and fertilizers, pesticides, plastics and petrochemicals etc. However, Indian chemical industry is yet to make its presence felt in a big way in the international markets.

Wide distribution channel in the market is achieved through both physical retail stores and online retailing. Availability of the product online has increased the consumer base for the companies and also witnesses higher reach which is anticipated to drive product demand.

(II) OPPORTUNITIES AND THREATS

The textile industry is witnessing growth due to several factors such as growing population, increasing disposable income and changing consumer trends. Textile industry is one of the major applications for dyes and is expected to provide a positive scope for the product demand over the forecast period.

Moreover, the production cost of Chinese chemical companies has also gone up due to increase in pollution control norms and this has narrowed down the cost differential between Indian and Chinese companies, to a certain extent. Thus, India can become another source of a Specialty chemical manufacturing hub.

The Dyes and Pigments market report provides a detailed analysis of global market size, regional and country-level market size, segmentation market growth, market share, competitive Landscape, sales analysis, impact of domestic and global market players, value chain optimization, trade regulations, recent developments, opportunities analysis, strategic market growth analysis, product launches, area marketplace expanding, and technological innovations. The dyes industry in India is expected to witness a steady growth in the coming years due to environmental crackdowns in China, resulting in a shutdown of several domestic dye companies. India is better placed due to the availability of the ecosystem, feedstock, technology, and compliance required for the industry. Thus, the consumer base of China is likely to shift to India due to these reasons in the coming years.

Exports of dyes and pigments are expected to improve on account of rising demand from the developed countries, as their local units shut down due to environmental issues. However, domestic environmental issues and regulations would restrict the supply growth from the SME's. Also, competition from China in the export market would impact the smaller players. As a result, demand would be increasingly met by large players as they can install effluent systems which are required to comply with regulations.

The major dye and dye intermediates importing countries such Turkey, Indonesia, Bangladesh and Italy had seen lockdowns and restrictions following the pandemic, which ultimately pulled down the exports down.

(III) SEGMENT WISE OR PRODUCT-WISE PERFORMANCE:

The company is engaged in a multi segment as Dyes and Chemicals, Metals Fiber Glass and Others. And thus, separate segment wise performance details given in the financial statement. As for the product wise performance, the board wishes to state that the Company earned to ₹6860.72 Lakhs from Dyes and Chemicals as compared to last years' sales of ₹ 6538.08 Lakhs for the financial year ended on March 31, 2024. Further, the company started the business of Fiber Glass and earned the revenue of ₹ 5424.66 Lakhs as at March 31, 2025.

(IV) OUTLOOK OF THE INDUSTRY

Rising consumer spending will drive increased demand for organic colorants in textiles and plastics, while strong growth in global construction activity will boost demand in paints and coatings. Increase in value demand will reflect the growing importance

of expensive, higher value dyes and pigments that meet increasingly stringent performance standards and preferences for more environmentally friendly products. The fastest growth in dye and organic pigment demand will be in paints and coatings applications, driven primarily by strong advances in construction expenditures in North America and continued growth in the Asia/Pacific region. While the outlook for many organic colorant applications remains healthy, more moderate advances in printing inks, due principally to the growing publication of information in electronic form, will restrain overall dye and pigment demand. Opportunities will exist, though, for dyes and organic pigments that can be used in digital inks added the release.

Due to the rising demand for organic pigments, they are the dominant type of pigments being produced in India, accounting for 58% of the total pigment production in India. The global market for colorants has seen strong expansion due to escalated calls from end user companies such as food, textiles, printing, inks, paintings and coatings. Growing economics China, India, Brazil and Indonesia are likely to play significant role in dyes consumption in the years to come.

Delayed shipments from China and a spike in raw material prices are threatening the dyes and dyestuff industry in Gujarat. Disruption in raw material supply from China could lead to 25% of dyestuff making units in the state closing, industry players' fear. Gujarat is home to some 1,500 dyes and dyestuff manufacturing units. Local dyestuff units are heavily dependent on imports of several raw materials, including chemicals and intermediates, from China and supply has been hit due to shipments being stuck owing to the coronavirus scare.

(V) RISKS AND AREAS OF CONCERN

The emergence of COVID-19 has brought the world to a standstill. We understand that this health crisis has brought an unprecedented impact on businesses across industries. However, this too shall pass. Rising support from governments and several companies can help in the fight against this highly contagious disease. Some industries are struggling and some are thriving. Overall, almost every sector is anticipated to be impacted by the pandemic.

We are making continuous efforts to help your business sustain and grow during COVID-19 pandemics. Based on our experience and expertise, we will offer you an impact analysis of coronavirus outbreak across industries to help you prepare for the future.

India and Indonesia are slowly taking the lead in dye manufacturing due to the availability of raw materials and also immediate organic chemicals. The dyes market is a booming activity driven mainly by call from end user companies such as textiles. Dyes and pigments are prepared from various chemicals, which are primarily derived from basic petrochemicals (benzene, toluene, xylene and naphthalene). Thus, input costs are volatile given that they are crude oil derivatives. Moreover, depreciation in the rupee as compared to US\$ may have some effect on the Company's business.

(VI) INTERNAL CONTROL SYSTEMS AND ADEQUACY

Internal Control Systems of the Company are commensurate with the nature of its business and size and complexity of its operations. These are routinely tested, certified and upgraded whenever required by the Statutory as well as the Internal Auditors covering all key areas of business. Significant audit observations and follow up actions and recommendations there on are reported to the higher Management and Audit Committee for their review.

(VII) DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

During the year, your Company earned to ₹14288.28 Lakhs as compared to last year's Revenue of ₹ 13362.02 Lakhs and the Company earned profit of Rs464.32 Lakhs for the year as compared to profit of ₹ 86.34 Lakhs in the previous year. Your directors are hopeful of getting better results in the current financial year, however depreciation in the rupee as compared to US\$ may have some effect on the Company's business.

(VIII) MATERIAL DEVELOPMENTS IN HUMAN RESOURCES/INDUSTRIAL RELATIONS

The Company continued with its drive to institutionalise and upgrade its HR processes, to help build a more robust workforce capable of managing dynamic and growing business needs. In particular, it focused on improving its processes related to Integrated Development, Performance Management and Succession Planning.

There were 40 employees on payroll of the Company as on March 31, 2025.

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the financial statements of **CAMEX LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31 2025, and the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the Financial Statements, including a summary of Significant Accounting Policies and other Explanatory Information (hereinafter referred to as the "Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on financial statement.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matters	How the Matter was addressed in our Audit
1	Revenue Recognition: - Revenue from sale of goods is recognized when control is transferred to the customers and when there are no other unfulfilled obligations. This requires detailed analysis of each sale agreement/ contract /customer purchase order regarding timing of revenue recognition. Inappropriate assessment could lead to a risk of revenue being recognized on sale of goods before the control in the goods is transferred to the customer. Subsequent adjustments are made to the transaction price due to grade mismatch/slippage of the transferred goods. The variation in the contract price if not settled mutually between the parties to the contract is referred to third party testing and the Company estimates the adjustments required for revenue recognition pending settlement of such dispute. Such adjustments in revenue are made on estimated basis following historical trend. Inappropriate estimation could lead to a risk of revenue being overvalued or undervalued. Accordingly, timing of recognition of revenue and adjustments for coal quality variances involving critical estimates is a key audit matter.	<p>Our audit procedures to assess the appropriateness of revenue recognized included the following;</p> <p>Our audit procedures, considering the significant risk of misstatement related to revenue recognition, included amongst other:</p> <ul style="list-style-type: none"> - Obtaining an understanding of an assessing the design, implementation and operating effectiveness of the Company's key internal controls over the revenue recognition process. - Examination of significant contracts entered into close to year end to ensure revenue recognition is made in correct period. - Testing a sample of contracts from various revenue streams by agreeing information back to contracts and proof of delivery as appropriate and ensure revenue recognition policy is in accordance with principles of Ind AS 115. <p>Our testing as described above showed that revenue has been recorded in accordance with the terms of underlying contracts and accounting policy in this area.</p>

Sr. No.	Key Audit Matters	How the Matter was addressed in our Audit
2	<p>Inventory and Valuation of Inventories and Physical Verification of Inventories:-</p> <p>The carrying value of inventory as at March 31 2025 is ₹1,312.97 Lakhs. The inventory is valued at the lower of cost and net realizable value.</p> <p>We considered the value of inventory as a key audit matter given the relative size of its balance in the financial statements and significant judgment involved in the consideration of factors in determination of selling prices such as fluctuation of raw materials prices in the market and in determination of net realizable value. (Refer Note 8 to the Financial Statement)</p>	<p>Our audit procedures included the following;</p> <ul style="list-style-type: none"> - We understood and tested the design and operating effectiveness of controls as established by the management in determination of net realizable value of inventory. - Assessing the appropriateness of Company's accounting policy for valuation of stock-in-trade and compliance of the policy with the requirements of the prevailing Indian accounting standards. - We considered various factors including the actual selling price prevailing around and subsequent to the year-end. - Compared the cost of the finished goods with the estimated net realizable value and checked if the finished goods were recorded at net realizable value where the cost was higher than the net realizable value. <p>Based on the above procedures performed, the management's determination of the net realizable value of the inventory as at the year end and comparison with cost for valuation of inventory is considered to be reasonable.</p> <p>It is not possible for us to physically verify the Inventories of Raw Materials, Inventory of Stores and Spares, and Packing and Other Materials at the year end. As per the information given to us by the management, that the management of the company physically verify the inventories at regular intervals. We have relied on such verification and valuation done by the management of the company.</p>
3	<p>Carrying Value of Trade Receivables and Advances:-</p> <p>The collectability of the company's Trade Receivables and Advances (Including Trade Advances), the valuation of allowance for impairment of trade receivables and provision for bad and doubtful debt require significant management judgment. As per the current assessment of the situation based on the Internal and external information available up to the date of approval of these financial results by the Board of Directors, the Company believes that there is no indication of any material impact on the carrying value.</p> <p>Management uses this information to determine whether a provision for impairment or for bad debt is required either for a specific transaction or for a customer's balance overall. Accordingly, it has been determined as a key audit matter.</p>	<p>Our audit procedures included the following;</p> <ul style="list-style-type: none"> - We assessed a sample of trade receivables and advances. - We assessed the ageing of trade receivables and advances, the customer's historical payment patterns and whether any post year-end payments have been received up to the date of completing our audit procedures. - We also discussed with the management regarding any disputes between the parties involved, attempts by management to recover the amounts outstanding and on the credit status of significant counterparties wherever available. <p>In assessing the appropriateness of the overall provision for impairment, we considered the management's application of policy for recognizing provisions.</p> <p>We assessed the Company's provisioning policy and comparing the Company's provisioning against historical collection data.</p> <p>Based on our procedures, we also considered the adequacy of disclosures in respect of trade receivables and advances in the financial statements.</p>

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the act for safeguarding of the assets of the company and for preventing and detecting fraud and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors are also responsible for assessing the Company's ability to continue as going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the financial reporting process of the Company.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As a part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- (d) Conclude the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report that:-

- We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- The Balance Sheet, the Statement of Profit and Loss (Including Other Comprehensive Income), Statement of Change in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
- In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.
- On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164(2) of the Act.
- With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure - A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the company's internal financial controls over financial reporting.
- According to Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014, the company is maintaining books of accounts using accounting software which has a feature of recording audit trail (edit log) facility of each and every transaction, creating an edit log of each change made in books of account along with the date when such changes were made and ensuring that the audit trail is properly enabled.
- With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - The Company does not possess any pending litigations on its financial position in its financial statements.
 - The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the company.
 - The Management has represented that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - The Management has represented, that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign

- entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- (v) The company has not declared or paid dividend during the year, hence compliance with section 123 of the Companies Act, 2013 is not applicable.
2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure - B", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Emphasis of Matter

We draw your attention to Note to 35 & 55 of the financial statements, which describes the effect of fire occurred in the factory premises on July 31, 2024. The accidental expenses on fire exposure are duly recorded under exceptional item of Profit and Loss Account.

The Company's wax plant (leased) in Ankleshwar located at Plot No., J-7833 & C-1/B 7834 Nr. Dhiraj Can Co., GIDC, Ankleshwar - 393002, engaged in the manufacturing of wax and related items. ANNEXURE - A**“Annexure A” to the Independent Auditor’s Report of even date on the Financial Statements of Camex Limited**

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Camex Limited of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **CAMEX LIMITED** (“the Company”) (**CIN-L17100GJ1989PLC013041**) as of March 31 2025 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Management of company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the criteria of internal control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes annexed to and forming part of the Standalone Financial Statements for the year ended March 31, 2024

Note 1 Corporate Information

Camex Limited (the company) is a public limited (Listed) company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The company is listed on Bombay Stock Exchange (BSE). The Company is engaged in business of manufacturing, trading, Import and Export of Dyes, Chemicals & Intermediates, Fiber glass, Metals and Coal Minerals & other.

Note 2 Basis of Preparation

a. Statement of Compliance

These standalone financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The Company's standalone financial statements up to and for the year ended 31 March 2025 were prepared in accordance with the Companies (Indian Accounting Standards) Rules, 2015, notified under Section 133 of the Act and other relevant provisions of the Act.

b. Functional and presentation currency

These standalone financial statements are presented in Indian Rupees, which is also the Company's functional currency. All amounts have been rounded to the nearest Lakhs. Except when otherwise indicated.

c. Basis of Measurement

The financial statements have been prepared on historical cost basis, except certain financial assets and liabilities which have been measured at fair value, defined benefits plan and contingent consideration. The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Act. Based on the nature of products and the time between acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purposes of current/non-current classification of assets and liabilities.

Current versus non-current classification:-

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- a) Expected to be realized or intended to be sold or consumed in normal operating cycle;
- b) Held primarily for the purpose of trading;
- c) Expected to be realized within twelve months after the reporting period, or
- d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- a) It is expected to be settled in normal operating cycle;
- b) It is held primarily for the purpose of trading;
- c) It is due to be settled within twelve months after the reporting period, or
- d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

d. Use of estimates and judgments

In preparing these standalone financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Management also needs to exercise judgment in applying the group's accounting policies. This note provides an overview of the areas that involved a higher degree of judgment or complexity, and of items which are more likely to be adjusted due to estimates and assumptions turning out to be different from those originally assessed. Detailed information about each of these estimates and judgments is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

Critical estimates and judgments;

The areas involving critical estimates or judgments are: -

- a) Estimated useful life of Property, Plant & Equipment and Intangible Assets – Refer Accounting Policy Note No. 3.1
- b) Recognition of revenue - Refer accounting policies – 3.5
- c) Recognition, Measurement, De-Recognition and Impairment of Financial and Non-Financial Assets and Financial and Non-Financial Liabilities – Refer Accounting Policies Note No. 3.6
- d) Estimation of current tax and deferred tax expense and payable – Refer accounting policies – 3.9
- e) Estimation of defined benefit obligation – Refer accounting policies – 3.10
- f) Estimation of fair values of contingent liabilities - Refer accounting policies – 3.11
- g) Determination of Lease Term and Discount Rate – Refer accounting policies – 3.4 & 3.12

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the group and that are believed to be reasonable under the circumstances.

Going concern assumption;

These Financial Statements have been prepared on a going concern basis. The management has, given the significant uncertainties arising out of the various situations, assessed the cash flow projections and available liquidity for a period of at least twelve months from the date of this Financial Statements. Based on this evaluation, management believes that the Company will be able to continue as a "going concern" in the foreseeable future and for a period of at least twelve months from the date of these Financial Statements based on the following:

- Expected future operating cash flows based on business projections, and
- Available credit facilities with its bankers

Based on the above factors, the management has concluded that the "going concern" assumption is appropriate. Accordingly, the Financial Statements do not include any adjustments regarding the recoverability and classification of the carrying amount of assets and classification of liabilities that might result, should the Company be unable to continue as a going concern.

e. Measurement of fair values

Some of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. This includes a financial reporting team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the Management.

The financial reporting team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as pricing services, is used to measure fair values, then the financial reporting team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (Un-observable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

-Note 51 - Financial instruments

Note 3 Material Accounting Policies

3.1 Property, Plant and Equipment:

➤ Recognition and Measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

➤ **Subsequent Expenditure**

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company. All other repair and maintenance costs are recognized in the statement of profit and loss as incurred unless they meet the recognition criteria for capitalization under Property, Plant and Equipment.

➤ **Depreciation**

Depreciation on tangible assets is provided on the Straight-Line Method (SLM) over the useful life of the assets as prescribed under Schedule II to the Companies Act, 2013. In respect of the fixed assets purchased during the year, depreciation is provided on pro rata basis from the date on which such asset is ready to be put to use.

Depreciation method, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions/disposals is provided on a pro-rata basis i.e. from /up to the date on which asset is ready for use/ disposed off.

➤ **De-recognition**

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The consequential gain or loss is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss.

3.2 Capital Work-in-progress:

Capital work-in-progress represents directly attributable costs of construction to be capitalized. All other expenses including interest incurred during construction period are capitalized as a part of the construction cost to the extent to which these expenditures are attributable to the construction as per Ind AS-23 "Borrowing Costs". Interest income earned on temporary investment of funds brought in for the project during construction period are set off from the interest expense accounted for as expenditure during the construction period. Advances given towards acquisition of property, plant and equipment outstanding at each balance sheet date are disclosed as other non-current assets.

3.3 Intangible Assets:

➤ **Recognition and Measurement**

Intangible assets including those acquired by the company are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortization and any accumulated impairment losses (if any).

➤ **Subsequent Expenditure**

Subsequent expenditure is capitalized only when it increases the future economic Benefits embodied in the specific asset to which it relates. All other expenditure is Recognized in profit or loss as incurred.

➤ **Amortization**

Amortization is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight line method, and is included in depreciation and amortization in Statement of Profit and loss.

Amortization method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

➤ **De-Recognition**

The carrying amount of an intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the de-recognition of an intangible asset is measured as the difference Between the net disposal proceeds and the carrying amount of the intangible asset and is recognized in the Statement of Profit and Loss when the asset is derecognized.

An item of intangible asset initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset [calculated as the difference between the net disposal

proceeds and the carrying amount of the asset] is included in the statement of profit and loss when the asset is derecognized. Intangible fixed assets are amortized on straight line basis over their estimated useful economic life.

3.4 Leases

➤ **Company as a lessee –**

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities against lease payments and right-of-use assets representing the right to use the underlying assets.

➤ **Right-of-Use of Asset –**

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the lease term of the underlying asset.

Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

➤ **Lease Liability:**

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are re-measured with a corresponding adjustment to the related right of use asset if the Group changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and Right-of-use asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

3.5 Revenue Recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

➤ **Sale of Goods**

Revenue from the sale of goods in the course of ordinary activities is measured at the fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates. This inter alia involves discounting of the consideration due to the present value if payment extends beyond normal credit terms. Revenue is recognized when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing effective control over, or managerial involvement with, the goods, and the amount of revenue can be measured reliably.

The timing of transfers of risks and rewards varies depending on the individual terms of sale.

- Export benefits are recognized as Income when the right to receive credit as per the terms of the scheme is established and there is no significant uncertainty regarding the claim.
- For all debt instruments measured either at amortized cost or at fair value through other comprehensive income [OCI], interest income is recorded using the effective interest rate [EIR]. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument [for example, pre-payment, extension, call and similar options] but does not consider the expected credit losses.
- Interest income is recognized on time proportion basis taking in to account the amount outstanding and rate applicable.
- Dividend income is recognized in profit and loss on the date on which the Company's right to receive payment is established.

3.6 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts, interest rate swaps and currency options.

➤ **Recognition and Initial Measurement**

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

➤ **Classification and Subsequent Measurement - Financial Assets**

On initial recognition, a financial asset is classified as measured at

- Amortized Cost
- FVOCI – Debt Investment
- FVOCI – Equity Investment
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period to the company change its business model for managing financial assets.

Financial Assets are measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL.

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cashflows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. At present, the Company does not have investments in any debt securities classified as FVOCI.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

➤ **De-recognition of financial assets**

The Company de-recognizes a financial asset when the contractual rights to the cash flows from the financial asset expires, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions where by it transfers assets recognized on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not de-recognized.

➤ **Impairment of financial instruments**

In accordance with Ind-AS 109, the Company applies Expected Credit Loss (ECL) Model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial Assets measured at amortized cost and
- b) Financial Assets measured at FVOCI - debt investments

At each reporting date, the company assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is "credit-impaired" when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- Significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being past due for 90 days or more;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial Difficulties.

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition, which are measured as 12 month expected credit losses.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. Twelve months expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward looking information.

Measurement of Expected Credit Losses:-

Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of Allowance for Expected Credit Losses:-

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

➤ **Impairment of Non-Financial Assets**

The Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognized in the statement of profit and loss. Impairment loss recognized in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

In respect of other assets for which impairment loss has been recognized in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

➤ **Reclassification of financial assets**

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses [including impairment gains or losses] or interest.

➤ **Financial Liabilities - Classification and Subsequent Measurement, Gain and Losses**

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gain and losses are recognized in profit and loss.

➤ **Loans and Borrowings**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

➤ **De-recognition of financial liabilities**

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognizes a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognized at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognized in profit or loss.

➤ **Offsetting**

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

➤ **Operating Cycle**

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Operating cycle is the time from start of the project to the realization in cash or cash equivalents.

3.7 Inventories

Inventories are measured at the lower of cost and net realizable value after providing loss for obsolesce, if any, except for Raw Material which is measured at cost. The cost of inventories is determined using the first in first out (FIFO) method and includes expenditure incurred in acquiring inventories, production or conversion and other costs incurred in bringing them to their respective present location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity. The comparison of cost and Net Realizable Value is made on an item by item basis.

Net realizable value is estimated selling price in the ordinary course of business, less estimated cost of completion and the estimated costs necessary to make the sale. The net realizable value of work in progress is determined with reference to selling prices of finished products.

3.8 Foreign Currency Transactions

Transactions in foreign currencies are translated into the respective functional currencies of the Company at the exchange rates at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date.

Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognized in profit or loss.

3.9 Income Tax

Income tax comprises of current and deferred tax. It is recognized in the statement of profit or loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

➤ **Current Tax**

Current tax comprises of the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

➤ **Deferred Tax**

Deferred tax is recognized in respect of timing differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognizes a deferred tax asset only to the extent that it has sufficient taxable timing differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets un-recognized or recognized, are reviewed at each reporting date and are recognized/reduced to the extent that it is probable/no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Any tax credit available is recognized as deferred tax to the extent that it is probable that future taxable profit will be available against which the unused tax credit can be utilized. The said asset is created by way of credit to the statement of Profit and loss and shown under the head of deferred tax.

3.10 Employee Benefits

➤ Short Term Employee Benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid e.g. Under short-term cash bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably. Leave Entitlement Benefits are paid on yearly basis to respective employees.

➤ Retirement Benefits

Retirement benefits in the form of provident fund and superannuation fund are defined contribution plans. The Company has no obligation, other than the contributions payable to provident fund and superannuation fund. The Company recognizes contribution payable to these funds as an expense, when an employee renders the related service.

In respect of gratuity liability, the Company operates defined benefit plan with LIC wherein contributions are made to a separately administered fund. The costs of providing benefits under this plan are determined on the basis of actuarial valuation at each reporting date being carried out using the projected unit credit method.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to Statement of Profit and Loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognizes the following changes in the net defined benefit obligation as an expense in the Statement of Profit and Loss:

- Service costs comprising current service costs; and
- Net interest expense or income

3.11 Provisions and Contingencies (Other than for Employee Benefits)

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

The unwinding of the discount is recognized as finance cost. Expected future operating losses are not provided for.

Contingencies: -

Disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

3.12 Determination of Lease Term and Discounting Rate

A. Determination of Lease Term

Ind AS 116 Leases requires lessee to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes assessment on the expected lease term on lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of lease and the importance of the underlying to the Company's operations taking into account the location of the underlying asset and the availability of the suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

B. Estimating the Incremental Borrowing Rate

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate that the Company have to pay to borrow over a similar terms, and with a similar security, the funds necessary to obtain an asset of similar value to the right-to-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which require estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Company estimates the IBR using observable inputs when available and is required to make certain entity / lease transaction specific estimates. For further details on lease liabilities movement refer note 54(B).

3.13 Cash and Cash Equivalents

Cash and cash equivalent comprise cash on hand and demand deposits with banks which are short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

3.14 Exceptional items

Certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company, such income or expense is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the financial statements.

53. Financial Risk Management Objectives & Policies:

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The company's financial risk management policy is set by the Managing Board. The Company's principal financial liabilities, other than derivatives, comprise borrowings and trade & other payables. The main purpose of these financial liabilities is to finance the Company's operations and to support its operations. The Company's principal financial assets include Investments, loans given, trade and other receivables and cash & short-term deposits that derive directly from its operations. Risk assessment and management of these policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities.

The company has exposure to the following risks arising from financial instruments: -

- (i) Market Risk
 - (a) Currency Risk
 - (b) Interest Rate Risk
 - (c) Commodity Risk
 - (d) Equity Risk
- (ii) Credit Risk
- (iii) Liquidity Risk

Risk Management Framework

The Company's activities expose it to variety of financial risks, including market risk, credit risk and liquidity risk. The Company's primary risk management is to minimize potential adverse effects of risk on its financial performance. The company's risk management assessment policies and processes are established to identify and analyze the risk faced by the company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management of these policies and processes are reviewed regularly to reflect changes in market conditions and the Company's Activity. The Board of Directors and Audit Committee are responsible for overseeing these policies and processes.

In order to minimize any adverse effects on the financial performance of the company, derivative financial instruments, such as foreign exchange forward contracts are entered to hedge certain foreign currency exposures. Derivatives are used exclusively for hedging purposes and not as trading/speculative instruments.

(i) Market Risk:-

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices, commodity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables and payables. The objective of market risk management is to manage and control market risk exposure within acceptable parameters, while optimizing the returns.

(a) Currency Risk

The fluctuation in foreign currency exchange rates may have potential impact on the profit and loss of the company, where any transactions has more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the entity.

Considering the countries and economic environment in which the company operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risk primarily relates to fluctuations in U.S. Dollar against the respective functional currency (INR) of Camex Limited.

The company, as per its risk management policy, uses its foreign exchange and other derivative instruments primarily to hedge foreign exchange and interest rate exposure. The company does not use derivative financial instruments for trading or speculative purpose.

Exposure to Currency Risk

Refer Note 52(c) for foreign currency exposure as at March 31, 2025 and March 31, 2024 (Hedge Accounting).

Sensitivity Analysis

A 1% strengthening/weakening of the respective foreign currency with respect to functional currency of Company would result in increase or decrease in profit or loss as shown in table below. The following analysis has been worked out based on the exposures as of the date of statements of financial position.

(₹ in Lacs)

Effect in Indian Rupees	Profit/(Loss) March 31, 2025		Profit/(Loss) March 31, 2024	
	1 % Strengthening	1% Weakening	1 % Strengthening	1% Weakening
USD	(1.79)	1.79	(0.25)	0.25

(b) Interest Rate Risk

Interest rate risk is the risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company's exposure to market risk for changes in interest rates relates to borrowings from financial institutions. In order to optimize the company's position with regards to the interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

The company does not have interest rate linked financial instrument which is subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flow will fluctuate because of a change in market interest rates.

Refer Note 18 and 21 for interest rate profile of the Company's interest-bearing financial instrument at the reporting date.

(c) Commodity Risk

The prices of Dyes, Chemicals, Metal and others are subject to wide fluctuations due to unpredictable factors such as quality, Purity, Thickness, Market Competition, Government Policies etc. During its ordinary course of business, the value of the Company's open sales and purchases commitments and inventory of raw material changes continuously in line with movements in the prices of the underlying commodities. To the extent that its open sales and purchases commitments do not match at the end of each business day, the Company is subjected to price fluctuations in the commodities market.

(d) Equity Risk

Equity Price Risk is related to the change in market reference price of the investments in equity securities. The fair value of some of the Company's investments in Fair value through profit and loss account, securities exposes the Company to equity price risks. However the company has not invested in investment in such securities which are subject to market risk. Hence the company is not exposed to Equity Risk.

(ii) Credit Risk

Credit risk arises from the possibility that a customer or counter party may not be able to settle their contractual obligations as agreed. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is significant increase in credit risk the company compares the risk of a default occurring and the asset at the reporting date with the risk of default as the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- Actual or expected significant adverse changes in business.
- Actual or expected significant changes in the operating results of the counterparty.
- Financial or economic conditions that are expected to cause a significant change to the counter Party's ability to meet its obligation

- iv Significant increase in credit risk on other financial instruments of the same counterparty.
- v Significant changes in the value of the collateral supporting the obligation or in the quality of third-party guarantees or credit enhancements.

A. Trade and Other Receivables: -

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

The Company has established a credit policy under which each new customer is analysed individually for creditworthiness before the standard payment and delivery terms and conditions are offered. The Company's review includes external ratings, if they are available, financial statements, credit agency information, industry information and in some cases bank references. Sale limits are established for each customer and reviewed periodically.

The Company measures the expected credit loss of trade receivables based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, as per management perceptions, loss on collection of receivable is not material hence no additional provision considered.

The maximum exposure to Credit Risk for Trade Receivables by geographic region was as follows:

Particulars	As at March 31, 2025	As at March 31, 2024
Domestic	1,892.28	2,092.61
Other Region	295.75	281.89
Total	2,188.03	2,374.51

Age of Receivables

Particulars	As at March 31, 2025	As at March 31, 2024
Past Due but not Impaired		
Past due upto 120 Days	2,071.98	2,186.22
Past due 120-180 Days	18.42	58.91
Past due more than 180 Days	97.64	129.37
Total	2,188.03	2,374.51

Management believes that the unimpaired amounts that are past due by more than 180 days are still collectible in full, based on historical payment behavior and extensive analysis of customer Credit Risk, including underlying customers' Credit Ratings if they are available.

B. Cash and Cash Equivalents

The Company holds cash and cash equivalents with credit worthy banks and financial institutions of ₹238.27 Lacs as at March 31, 2025 [₹914.93 Lacs as at March 31, 2024]. The credit worthiness of such banks and financial institutions is evaluated by the management on an ongoing basis and is considered to be good (Refer Note No. - 10 to the financial statements).

C. Derivatives

The derivatives are entered into with credit worthy banks and financial institution on counterparties. The credit worthiness of such banks and financial institutions is evaluated by the management on an ongoing basis and is considered to be good.

D. Investments

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counter-parties that have a good credit rating. The Company does not expect any losses from non-performance by these counter-parties.

(iii) Liquidity Risk

Liquidity Risk is defined as the risk that the company will not be able to settle or meet its obligations on time or at reasonable price. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risk to the Company's reputation. The company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the company's net liquidity position through rolling forecast on the basis of expected cash flows.

The Company has obtained fund and non-fund based working capital loan from various banks. The Company also constantly monitors various funding options available in the debt and capital markets with a view to maintaining financial flexibility.

As of March 31, 2025, the Company has No Working Capital Borrowing. [As of March 31, 2024, the Company has No Working Capital Borrowing]

Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder value.

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions or its business requirements to optimise return to our shareholders through continuing growth. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The funding requirements are met through a mixture of equity, internal fund generation and other non-current borrowings. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings less cash and short-term deposits (including other bank balance).

57 Financial Ratios :

The ratios for the years ended March 31, 2025 and March 31, 2024 are as follows :

Sr. No.	Particulars	Numerator	Denominator	March 31 2025	March 31 2024	Variance	Reason for Variance (if variance is more than 25%)
1	Current Ratio	Current Assets	Current Liabilities	3.08	4.47	-31%	Decrease in current assets and Increasing the current liabilities of the company lead to the Decline in current ratio.
2	Debt Equity Ratio	Total Debt ^{#1}	Shareholders Equity	0.00	0.19	-100%	The Debt-Equity Ratio has become nil due to the complete repayment of the company's outstanding debt during the reporting period.
3	Debt Service Coverage Ratio	Earnings available for Debt service ^{#2}	Debt Service ^{#3}	3.92	0.68	474%	The Debt Service Coverage Ratio has improved during the year primarily due to a reduction in debt service obligations (i.e., lower interest and principal repayments). As the earnings available for debt service remained constant, the decrease in debt service led to a higher DSCR, indicating enhanced ability of the company to meet its debt obligations.
4	Return on Equity (ROE)	Net Profits after tax	Average Shareholder's Equity	4.5%	8.8%	-49%	ROE denotes company's profitability and how efficiently it generates those profits. The higher the ROE, the better a company is at converting its equity financing into profits. The ROE ratio is decreased due to decrease in earnings/profits of the company.
